

CLASS 4

Name: _____

Class: _____

Division: _____

ACTIVE EVS

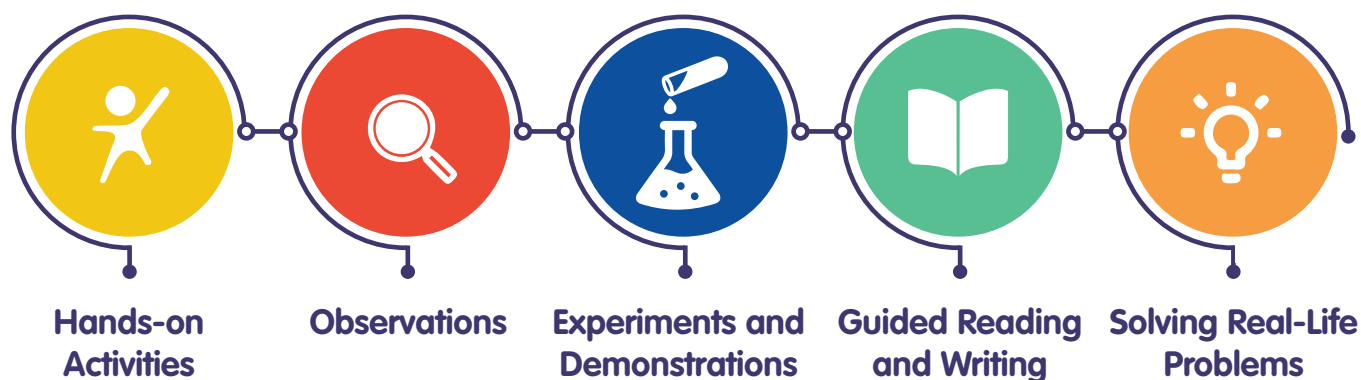

READER PART 1

Head Office
Unit #401, B Wing, Business Square,
Andheri Kurla Road, Chakala,
Andheri East, Mumbai - 400093, India

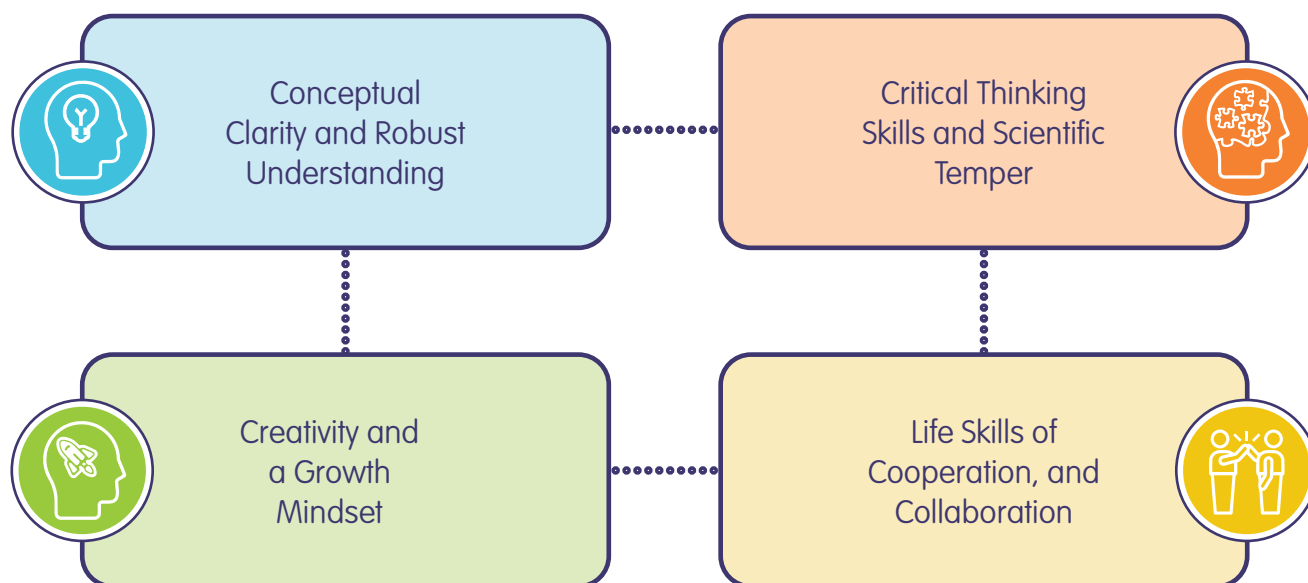

NOTE TO PARENTS

Children learn best when they can explore on their own and interact with everything around them. Keeping this in mind, LEAD **ACTIVE** EVS Curriculum is designed to provide students with learning opportunities that will enable them to actively engage with the learning materials and connect the learning to life. Some of the ways in which students will learn EVS are:

These classroom learning methods help students not only participate in the learning process actively but also achieve in-depth understanding of the concepts by doing or experiencing the lessons. This approach to learning is called Learning by Doing (LBD). Learning EVS through the LBD approach helps students build a strong foundation of the subject and prepares them for higher classes.

LBD Approach helps students develop the following skills

ANNUAL LEARNING PLAN

PART 1	Unit Name	Content Strand	Unit No.
	Organ Systems Teaches students about digestive and circulatory systems and habits to keep them healthy.	Life Science	1
	Habitat and Adaptations Introduces students to different habitats and the characteristics of plants and animals found in them.	Life Science	2

The **ACTIVE** EVS reader is a reference book that contains the important concepts that students learn in class. Students read content from the reader after conducting experiments, seeing a demonstration, or watching a video in class as per the LEAD learning plan.

The **ACTIVE** EVS reader should be read at home for revising the concepts taught in school. Students should also refer to it apart from their workbook and notebooks while preparing for assessments.
